# RHETT VERVILLE

602-571-6603 Peoria, AZ 85383 https://www.linkedin.com/in/rhett-verville-944b4b165/
rhettverv@gmail.com https://rhettverv.github.io/RhettVerville/

SUMMARY – Recent Cyber Operations graduate with two years of help desk experience and one year of point-of-sale systems programming/support for thousands of franchise locations across the United States and Canada. Skilled in troubleshooting, networking fundamentals, system administration, scripting, and cybersecurity tools.

- Troubleshooting
- Command-line Proficiency
- Linux – Windows - macOS
- Networking Fundamentals
- Cisco Networking
- Virtualization
- C - Python - Assembly Language
- Malware Analysis
- Digital Forensics

## EDUCATION

**University of Arizona, Tucson, AZ** May 2026
Bachelor of Applied Science, Cyber Operations – Cyber Engineering Emphasis
GPA 4.0 | Summa Cum Laude

**Glendale Community College, Glendale, AZ** December 2021
Associate of Applied Science, Information Security

## COURSE PROJECTS

- Created complex programs with programming languages such as Assembly Language, C, and Python.
- Configured, secured, and troubleshot networks using Cisco lab equipment, applying enterprise networking concepts such as IP addressing, routing, switching, VLANs, DNS, DHCP, and firewall rules.
- Gained hands-on experience with virtualization technologies such as VMware and VirtualBox.
- Experience with command-line driven computing (RedHat, CentOS, Kali Linux, PowerShell) such as administration tasks including file permissions, shell scripting, process management, package installation, and command-line troubleshooting.
- Competed in penetration testing and capture the flag competitions with the Cyber Security Club on Campus.
- Performed static and dynamic analysis of Windows and JavaScript-based malware, including obfuscated loaders, fileless execution, and supply-chain threats, using FLARE-VM, reverse-engineering tools, and custom scripts.
- Practiced vulnerability assessments and exploitation using Kali Linux, Metasploit, Nmap, and vulnerable Windows/Linux VMs.
- Performed network traffic analysis with tools such as Wireshark to inspect packets, protocols, and suspicious connections.
- Conducted memory forensics using tools such as HashCalc, Arsenal Image Mounter, FTK Imager, HxD, Sleuth Kit, ExifTool, ExifViewer, Volatility, and Autopsy to extract strings, URLs, email addresses, and other artifacts from memory dumps.

## PROFESSIONAL EXPERIENCE

**Temporary PC/LAN Technician** *Maricopa County*, Phoenix, AZ June 2026 - Current
- Imaged, configured, and troubleshot computers used at polling stations for the July and November elections in Maricopa County.
- Used Manage Engine to verify all necessary drivers and applications were installed before sending them out to polling sites.

**Junior Point-of-Sale Programmer** *Kahala Brands*, Scottsdale, AZ January 2023-February 2024
- Worked directly under the lead programmer while assisting the help desk.
- Developed and tested updates in a test environment before pushing them out to thousands of registers at a time.
- Collaborated with franchisee owners to fulfill their programming needs on a per store basis.

**Point-of-Sale Help Desk Analyst** *Kahala Brands*, Scottsdale, AZ April 2022-February 2024
- Took calls from franchisees and franchisee employees regarding issues with their point-of-sale systems.
- Assisted in hardware deployment including registers, firewalls, and network devices.
- Troubleshot various network, hardware, and windows operating system issues.

## OTHER WORK EXPERIENCE

| | | |
|---|---|---|
| **Line Cook** | *Bluestar*, Peoria, AZ | September 2019-November 2021 |
| **Food Runner/Expediter** | *Troon*, Peoria, AZ | December 2018-June 2019 |
| **Dishwasher/Line Cook** | *Bluestar*, Peoria, AZ | March 2015-November 2018 |

## CERTIFICATES

- Certificate of Completion – Information Security Technology May 2021
- Undergraduate Certificate - Cyber Operations May 2026

## LEADERSHIP AND ACTIVITIES

- Member, PSBN – Peoria Student Broadcasting Network August 2014
- Member, Cyber Security Club on Campus May 2019
